SKILLS

HTML, CSS, SCSS, Styled-Components, TailwindCSS, JavaScript, Typescript, React, Redux, NextJs, React-testing-library, Jest, Cypress, Node.js, Express, MongoDB

EXPERIENCE

Frontend Developer | Code2.io   January 2022 – Present
- Working with typescript, react, redux toolkit, primeflex, getzola.
- Developing pixel-perfect web pages.
- Adding new features to the latest version of the code2 platform.
- When users need help with using the code2 platform, help them.

PROJECTS

Realtime Message App
JavaScript, Typescript, React, Redux Toolkit, Firebase, PrimeFlex, AntDesign, Node.js, Express, MongoDB, Socket.io | GitHub - Demo

- Developed a message application using typescript, react.js in client and node.js, and express.js in server.
- Implemented authentication with google account and email/password using firebase.
- Implemented responsive and pixel-pixel perfect design to all pages.
- Implemented socket.io for users to see changes in messages and rooms.
- Used MongoDB to store messages and rooms.
- Users can create, delete, and update rooms and send real-time messages.

Kanban App
JavaScript, Typescript, React, TailwindCSS, GraphQL, Express.js, MongoDB, React-testing-library, Jest | GitHub - Demo

- Developed a kanban app with typescript, react.js in client and express.js, and graphql in server.
- Used react-beautiful-dnd to drag and drop between columns and in columns.
- Implemented responsive and pixel-pixel perfect design to all pages.
- Used react-testing library and jest to check the project after adding new features.
- Users can create, delete, and update tasks and columns.

Blog App
JavaScript, React, Next.js, SCSS, AntDesign, MongoDB| GitHub – Demo
- Made with javascript and next.js. Used MongoDB as a database.
- Implemented authentication with express and next.js api routes. Encrypted password with bcrypt to ensure user security.
- Developed profile page for users to show their blogs and favorite blogs.
- Users can create, delete, and update their blogs, like, dislike, comment on blogs, and search filter blogs.

EDUCATION

Eskişehir Osmangazi University | Mechanical Engineering (Dropped out in the sophomore year)
